

Global Tactical Asset Allocation (GTAA)

Designed to manage risk and reduce volatility.

In increasingly turbulent markets, investors seeking to reach their financial goals are searching for non-traditional investment strategies that are designed to reduce risk and volatility while producing positive returns. Our GTAA strategy provides the potential to create wealth in a changing market environment by having the flexibility to change with it. The strategy emphasizes risk management as a primary objective and attempts to generate attractive returns while reducing volatility and downside risk over a full market cycle.

Investment Overview

| | |
|-----------------------|----------|
| Inception Date | 7/1/2013 |
| Composite AUM (\$mil) | 1 |
| Firm AUM (\$mil) | 2,537 |

About First American Trust

First American Trust strives to deliver favorable client outcomes through trustworthy professional experts. As a subsidiary of First American Financial Corporation (NYSE: FAF), First American Trust provides trust and fiduciary services, investment advisory services and investment management services to individuals, families, charities, corporations and retirement plans.

Steady Real Returns

This strategy aims to achieve a real return of inflation plus 3% over full market cycles with less market risk. The portfolio is designed to quickly and actively adjust asset allocations based on market outlook so it can potentially mitigate risks in falling markets while benefitting in rising markets.

| Annualized Total Return (%) | YTD | 1-yr | 3-yr | 5-yr | 10-yr | Inception |
|-----------------------------|-------|-------|------|------|-------|-----------|
| Composite Gross Return | 12.70 | 12.70 | 8.51 | 4.75 | 6.15 | 6.04 |
| Benchmark Return | 5.73 | 5.73 | 6.03 | 7.59 | 6.30 | 5.82 |

As of Dec. 31, 2025

| Calendar Year Returns (%) | 2016 | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 | 2023 | 2024 | 2025 |
|---------------------------|------|------|-------|-------|------|-------|--------|------|------|-------|
| Composite Gross Return | 7.44 | 8.79 | -2.52 | 20.59 | 4.80 | 13.21 | -12.82 | 5.64 | 7.31 | 12.70 |
| Benchmark Return | 5.11 | 5.19 | 5.06 | 5.38 | 4.36 | 10.36 | 9.59 | 6.41 | 5.95 | 5.73 |

Timely Flexible Implementation

The strategy invests in a broad array of global asset classes through the use of exchange traded funds (ETFs). Fundamental and valuation assessments of global equity, bond, currency and commodity markets are supported by corresponding technical market research to assist with the optimal weighting of asset class investments. Allocations are adjusted dynamically and are not constrained by a single asset class benchmark, thus allowing for flexible active allocation across assets based on the opportunities and risks of the prevailing market environment. This strategy seeks to deliver attractive risk-adjusted returns while aiming to control drawdowns and preserve capital during high-risk environments.

Global Tactical Asset Allocation Composite contains fully discretionary accounts managed within our Global Tactical Asset Allocation Strategy (GTAA) process. This strategy utilizes exchange traded funds (ETFs) or cash for all asset classes and accounts are rebalanced as needed. Returns are based on actual asset-weighted composite returns and do not include any carved out segments. The asset allocation is tactical and dynamic within the GTAA product. The Global Tactical Asset Allocation Composite was created on December 31, 2014 and the inception date was July 1, 2013. The minimum account size for this composite is \$100 thousand.

For comparison purposes, the composite is measured against a Blended Benchmark consisting of the US CPI Urban Consumers SA Index plus 3% per annum. The Blended Benchmark is rebalanced on a monthly basis.
